NEVER FAILING REMEDY!

Holloway's Ointment.

A MAN LAYS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

a Letter from Mr Thompson Chemist Liverpool dated August 20 1852

To Professor HOLLOWAY

Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer About ten years ago, Mr W Cummins, of Saltney Street in this town was thrown from his horse whereby he received very serious injuries, he had the best medical advice at the time, and was afterwards an inmate of different infirmaries yet he grew worse and at length a malignant running ulcer settled in his hip which so completely crippled him that he could not move without crutches for nearly 10 years recently he began to use your Ointment and Pills which have now healed the wound strengthened his limbs and enabled him to dispense with his crutches so that he can walk with the greatest ease and with renewed health and vigor

(Signed) J THOMPSON

EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED

a Letter from Mr Hird Draper of Ready [illegible] dated March 1st 1852

To Professor HOLLOWAY

Sir—Some time since one of my children was afflicted with dreadful eruptions over the body and limbs I obtained the advice of several eminent Surgeons and Physicians by all of whom the case was considered hopeless At length I tried your Ointment and Pills and without exaggeration the effect was miraculous for by persevering in their use all the eruptions quickly disappeared and the child was restored to perfect health

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved also I shall be happy to testify the truth of this to any enquirer (Signed) J HIRD Draper

ANOTHER REMEDY FOR SCORBUTIC HUMORS—AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG

a Letter from Messrs Walker and Co Chemists Bath

To Professor HOLLOWAY

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighborhood we may mention that of an old lady living in the village of Preston, about five miles from this city She had ulcerated wounds in her leg for many years, and latterly these increased to such an alarming extent as to defy all the usual remedies her health rapidly giving way under the suffering she endured In this distressing condition she had recourse to your Ointment and Pills and by the assistance of her friends, was enabled to persevere in their use until she received a perfect cure We have ourselves been greatly astonished at the effect upon so old a person, she being 70 years of age We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case either personally or by letter

A private in the Bath Police Force also has been perfectly cured of an old scorbutic affection in the face after all other means had failed He states that it was entirely by the use of your Ointment and speaks loudly in its praise

We remain dear sir
Yours faithfully
[illegible] 1852 (Signed) WALKER & CO

The Pills should be used conjointly with the Ointment in most of the following cases

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA BRONCHITIS, GENERAL DEBILITY AND ALL SCROFULOUS HUMORS

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil which is so nauseous to persons generally is entirely overcome and it can be taken by the most delicate females with pleasure And as regards the benefit of this article over the clear oil the following case by Prof Stone is sufficient to convince the most skeptical The young lady was twenty four years of age

Her disease was one of unmixed phthisis which had been expected to terminate in the course of a few months fatally The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften The case was evident [illegible] The treatment of Cod Liver Oil was at first used but without marked improvement The Phosphate of Lime was then administered with the oil and the result as in the case of many others was soon apparent The patient was rapidly getting well

CAUTION —On account of the great reputation of this Compound for all lung complaints the subscriber would caution the afflicted against using any except that manufactured by him as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner Therefore as you value your health purchase none except that manufactured by

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes

CLASS FIRST embraces the denominations of one two three four and five dollars These are distinguished by strips at the right ends of the notes, composed of geometric lathe work and running towards the centre the number of strips corresponding with the amounts of the notes Thus a one strip for one dollar two strips for two dollars, and so on, and upon the centre of these strips a large figure readily seen, designates the denomination of each note In this class of notes there are no borders on the left ends—which are occupied by vignettes and other work The President's name will be placed under and near the right end strip work on all notes of this class and that of the Register or some other name above it, thus protecting the strip work from alteration—no space being left for adding another strip either above or below the signatures

CLASS SECOND embraces the denominations of ten twenty fifty one hundred and five hundred dollars On these the whole arrangement is reversed The strips of lathe work (different from those used upon the other class of notes) commence at the left ends and run towards the centre the vignettes and other work being upon the right On this class the Cashier's name is placed under the strip work and that of the Register directly over it their names being separated by one strip on a ten dollar note, by two on a twenty three on a fifty four on a hundred and by five strips upon a five hundred dollar note presenting a perfect contrast between the two classes of notes

Any person acquainted with the plan could not be deceived by any alteration of any one of these notes in either class from one denomination to another The plan is a simple one and is comprehended almost at a glance, from an examination of the notes, for although so many lines are required to describe it in words the pictorial description is very short, and easily understood and remembered The inventor JAMES ATWATER, Esq, of New Haven Conn has secured his invention by caveat, entered at the Patent Office at Washington and has made an arrangement with DANFORTH WRIGHT & CO, exclusively, for its use upon Bank Notes

Besides the protection against the alteration of the denominations of Bank Notes afforded to banks and the public by this plan a very great security against counterfeiting is also afforded by the free use of the geometric lathe work of which the borders are composed, and which cannot be successfully imitated either with any other machine or with the graver

IMPORTANT TO ALL
WHO USE

Steam as a Motive Power,

AND TO THE

Safety and Great Economy.

AN opportunity is now offered to all whom it may concern to secure the exclusive right of manufacturing, using and vending in States and Counties,

IRVING'S
Circulating Safety Steam Boiler,

For Stationary Engines Locomotives Marine Engines on River Lake and Ocean Steamers &c — The advantages of this Boiler over all others now in use are

1st—ENTIRE SAFETY FROM EXPLOSION, being no more liable to explode than an open cauldron

2—Less than ONE THIRD the amount of fuel required to generate the steam obtained by other boilers of the same power

3—The cost of construction is reduced ONE HALF

4—They occupy but ONE-THIRD the space of other boilers and may be applied to any engine now in use

5—The expense of Furnace Grates will be incalculably lessened by the small amount of fuel required and the manner of using it

The Company GUARANTEE the reality of the above advantages Their conclusions are based on PRACTICAL RESULTS many of these Boilers being now in use in and about this city The inventor has but just succeeded after years of application in bringing this valuable invention before the public It stands alone and independent in its merits and if it has the qualities claimed which are undeniable the public will at once acknowledge its superiority over any other motive power

Terms of Sale made known on application at the office of the IRVING STEAM BOILER COMPANY corner of Broadway and Park place New York over the New Broadway Bank

Sermon of Prof. Shepard on the Norwalk Calamity

On the last Sabbath Prof. Shepard delivered a discourse in reference to the recent calamity at Norwalk. His text was

JAMES iv 13, 14.—"Go to now ye that say, To-day or to-morrow, we will go into such a city, and continue there a year, and buy and sell, and get gain Whereas, ye know not what shall be on the morrow. For what is your life? It is even a vapor, that appeareth for a little time, and then vanisheth away."

After some introductory remarks, the preacher said, that probably every reflective mind has of late been painfully turned to that frightful succession—almost cluster, of fatal providences which have been passing before us.—Providences, we say, not altogether accidents, for there is a divine Providence as well as a human recklessness in them On the water, and on the land, in car and in boat,—the Erie, the Goliath, the Griffith, the Henry Clay, the Rein Deer, the Independence, the Ocean Wave, the Page, the Lewis, the Jenny Lind,—the burnings, the collisions, the leaping of bridges and precipices, scores and fifties despatched at a blow—death in company, mass murder wholesale execution—the guillotine itself far distanced and out done,—in the presence of all this howits one portion of the text vitalized and enforced, 'For what is your life'

1 What in its duration
2 What in its joys and sorrows.
3 What, as a term of accomplishment
4 What in its real value.

The preacher having briefly touched these points, said—

I wish to recur here to the value of a life in its social relations and beneficent bearings There is a value to that life, past estimating aside from any thought of mere advantage therefrom. That life, that intellect, that heart, that person are in themselves, a fountain of happiness to a definite circle of kindred and friends How much happiness may flow from this life to brighten and bless the lives of those others How much precious service to those outside of this circle? The professional skill, the neighborly kindness, the Christian beneficence carry forth on every hand rills of relief and comfort.

If now we could gather up and hold together the interests embraced in human life—which interests hang upon its continuance—the personal those embraced in the soul to be saved or lost—the domestic and social, the dependence of many upon one living or dying with that one—the stores of learning, the professional taste and zeal, the capabilities of business, the Christian heart of love, and Christian deeds of mercy—bring these all together, then sweep them all away at one fell stroke, thus may we begin to sound the depth of one of those disasters to which we have alluded We ought not to let such things pass without thought and utterance They have come thick, and have reached an appalling climax in that recent railroad plunge The scene at Norwalk, you have all read of it I will not attempt to describe it It has not been described, it cannot be For the number and the character of the sacrificed it has hardly had its parallel Nearly all professions, classes, ages, were represented there—the expert surgeon, his own frame so mangled and broken as to be past the recognition of friends, the skillful mechanic, returning home from his labors in building another road, found his burial beneath the ruins of this, the young man, for months abroad in pursuit of health, with heart and face eagerly set toward friends, met the enemy he would escape in a place and form he had not thought of, the newly married, that very morning the hour and witness of the plighted vow, 'with bridal robes and jewels' still on, rushed into the embrace of death The scene, the suffering there, who can tell?—and then the agony which rode with the intelligence on the wing of the electric wires—the agony in the houses made desolate, of wounds opened which will never close, who can guage this? We will not dwell here, it is too painful But proceed to raise the inquiry, What mean these things? What teach they? What should they lead us to do?

I will not raise the question of blame A jury's verdict has settled that mainly upon the engine-man but not *all* there, a portion of it upon the company; not all there, we might say, but a portion of it upon the community at large, upon that insane demand for speed which is almost universal—upon that miserable sentiment which prevails to an increasing extent, and which goes to discharge men from their accountability—from all wholesome responsibility The wretched laxness in the use of good laws, the clearing of the majority of culprits from the punishment they deserve, is making sad havock with personal security and public happiness and will make worse if it go on Our own necks, perhaps, will yet go for our own looseness in this matter, and justly We cannot live without good laws, and then holding men sternly to their responsibility. The maddest vagary of the mad-caps of the world is, that the world and the universe does not need law, restraint, penalty, for its secure and healthful progress God's kingdom does not, man's does not. A vagary fit only for a birth and a breeding in a mad house

We see, sometimes, in the affairs of this world, we see in this *dreadful* affair, a little gleaming of the great principle of vicariousness. We see, in the phrase of the high priest of old, not only that it is expedient, but necessary, that one should die for the people. It seems that some among the people must die by these more expeditious modes, these modern conveniences Certain devices for safety are inadequate, but it is not yet known that they are It is known when fifty lives have gone for that defect Then, a long term of security promotes a spirit of carelessness in those employed At length, it is only a sacrifice that will bring matters right. The sacrifice takes place, and all ears tingle, and numberless hearts bleed *They* rode in fatal peril, that we might ride in augmented safety Those dead, we perceive, did a service to the living. We, in a sense, are their debtors. It is a part of God's wonderful economy, an instance of his drawing good out of evil

We see the impossibility of gaining unmixed good in this world. God seems to have a system of compensations, from the working of which, we cannot get wholly clear. He calls upon us to pay something for every new advantage we think we gain If we contrive a way to go faster while we live, this is the price exacted at our hands, that we live shorter for that speed, a perfectly natural, and reasonable law this, that the desperate hurry we are in, bring us more quickly through Those yielded lives are but the toll paid, on those smooth roads and cushioned seats, at fifty miles the hour Certainly we ought not excessively to complain here This law of compensation—this exaction of a price which obtains every where in God's plan, is one of the bright proofs of his wisdom and goodness. Different parts of the world, and all the succeeding ages, are more evenly treated, more nearly equalized, than is sometimes supposed We of this progressed age, have not all the blessings, and all the advantages, and all the wisdom, as we are apt, arrogantly, to opine, and not very modestly to say

I remark further To this point we ought to make up our minds, and provide accordingly, that we do, and shall, live and move in a scene of peril The arrangements may all be right perfect, the servants all competent and faithful, the wood in no spot worm eaten, the iron of unparting toughness, and after all, our text stands, *Ye know not what shall be on the morrow.* When you commit yourself to the car or the stage, or the steamboat, ye know not, ye cannot know, whether to morrow will find you safe at the point of destination, or sleeping beneath a winding sheet of wave. It may be the latter, and no possible blame attaches to any concerned It is so, because man is of limited knowledge and capacity There is a liability to mistake inherent in the very limitation and laws of his nature—such a liability to mistake, that mistakes he will continue to make, so long as he continues to be a man He may verily think he sees what he really does not see—the ball He may honestly go forward, and many lives shall fall in sacrifice to his error—a very hecatomb of death and agony spread all about him, a part of which himself is It is well to understand, that we always start from our homes with such a liability—by no possibility knowing what is before us, not that he should proceed with fear, but with trust in God, "*If the Lord will*"—that spirit of confidence and submission will cast out all disturbing fear That spirit constitutes a preparation to meet whatever befalls, if it be death, it is also glory This recognition of dependance on God is altogether becoming us It is highly honorable to Him, and when we come safely through it brings out the heart's warm thanks for His protecting care It was not the thorough workmanship, the discreet management, the faithful espionage the vigilent skill of the pilot, the unfaltering vision of the engineer. Not for these I am safe at my journey's end, though these subordinates deserve great praise but above these and over all, he has written it, as his heart's glowing ascription, *The Lord willed* It was his shielding hand and power, and blessed be his Name.

What a marvel, and who has not often thought of it, that there have been such horrific exposures and perils—such absolute destructions of every thing else, and yet such a sparing of human life What a marvel, that so many, yea, the greater part crawled out alive from the common grave, human recklessness cug to receive them Is it any breach of philosophy even, to say, it was the Lord's merciful doing? No Certainly it is the accordant impulse of piety You may say it if you will, if you find any comfort in the barren, bitter atheism of the saying, "It so happened—such was the course of events" Let the Christian say, as he will, and with a comfort you know nothing about, *The Lord willed* It was his shielding hand and power, and blessed be his Name

We are reminded here of the force of our Saviour's reasoning from the life to the soul "What shall it profit a man if he gain the whole world and lose his own *life*?" much more, if he lose his own soul The *life lost*—what a loss, and, what a sensation it makes That sudden plunge and extinguishment of a few lives, what a catastrophe! It has shook the nerves and the very souls of a whole nation, because it was human life and because we saw them go down

But the Saviour's logic admitted, and where does the process carry us? To a conclusion unspeakably more appalling to catastrophes only the Infinite can measure and know Not fifty mortal lives, but souls immortal, and without number, meeting a death without end But how little feeling here Because it is not a fact? The Great God assures us, it is a fact If we believe God, we believe it so But it is all unseen—all in silence The soul of that wicked man does not meet his catastrophe on a stage, on a theatre No leap and crash, but alone and still, he dies, "and in hell he lifts up his eyes, being in torments" Could the world see there, as they see here, what a sensation—see there *as they will* see and know, even all of *us*, and that very soon

We *do* see what makes a measure of the peril to the *lives* It is the greediness of gain, getting all possible, *saving* all possible Saving by diminishing the safe guards—looking out for the dividends, though they decimate the people, and so go the lives

The same in the other matter Greediness of gain Gain he must get it—the world—we must have it. And so your souls go And shall they go? Will you *let* them thus go? When God, if you would let Him, would win them, and draw them, and make them rise and live *Will* you let him, and *be it*, and *do it*, and LIVE?

COMING THRO THE RYE Our friend, D P McQuesten, has shown us a number of stalks of rye, an average specimen of a field of thirty acres lying near Pushaw lake sown by him last year Some of these stalks are twenty inches in height and are most green and vigorous. This year's growth of straw on this field will be worth not less than $500 in market to say nothing of the grain Why go to Wisconsin or California?—(Mercury

☞ We return our thanks to Mr Cushing the attentive Clerk of the Daniel Webster for Boston papers received yesterday in advance of the mail.

Loss of an American Ship and more than Two Hundred Lives.

NEW YORK, May 16.

The brig Reuben Carver, of Rockland, which arrived here this morning, brought Capt. Stimson, mate, second mate, and six of the crew of the ship William & Mary, of Bath, lost at sea — The W & M left Liverpool with a cargo of railroad iron, and 208 passengers, nearly all of whom, together with the steward and two of the seamen went down in the ship

Capt. S reports that the William & Mary struck on a sunken rock near the Great Isaacs on the evening of the 3d of May, at half past 8 o'clock, thumping heavily for fifteen minutes She then fell off and struck another rock within a few rods of the first. Here she thumped a few times, and then fell off again into deep water, when she commenced filling After laboring at the pumps till 7 o clock in the morning without avail and finding the ship with ten feet of water in her hold, and fast sinking the captain, mate and crew, with a few passengers took to the boats and left her —In a few minutes she went down carrying with her nearly all the passengers

The Boston Traveller states that this was a ship, on her first voyage from Liverpool to New Orleans There is $26,000 insured on the ship in Boston

WASHINGTON May 16

From Washington.

It is rumored that R H Gillett of New York, or Mr Peck of Vermont, will be appointed Solicitor of the Treasury

Sandwich Island affairs are still under discussion It is designed to appoint a Commissioner to these Islands, with instructions not to refuse the offer of annexation, should it be offered

The choice of Geo Sanders for the Consulship of London, was made by the President himself

A detachment of recruits under Gen Garland, will leave Fort Leavenworth for New Mexico, on the 15th of June

The administration will take high ground in relation to the territorial dispute in that country and will repudiate the acts of Commissioner Bartlett.

THE FISHERMEN There is some fear of a collison between the American and Provincial fishermen this season The St. John's New Brunswicker, however gives us an item, showing that the reciprocal trade partialities of the British Government are likely to be acceeded to at Washington That paper of Saturday says 'We learn from Washington that fresh negotiations for a settlement of the fishery question as also the question of reciprocal trade have very recently been commenced between Mr Crampton and Secretary Marcy—and it is reported that the United States Government is most anxious for a speedy settlement In the meantime, or until the question is arranged the fisheries on the British North American coast are to be guarded this year from American trespassers, as jealously and more efficiently than last year The papers add that probably this course will bring the United States to terms on the reciprocity question

THE STAR OF THE CABINET —The Hon Caleb Cushing Attorney General, is unquestionably the leading spirit of the Cabinet —He has taken the whole building opposite the Treasury lately occupied by the Department of the Interior and fitted up his rooms in elegant style, with a regular 'Audience Chamber' which is said to be even more thronged with applicants for office than the Ante Room of the White House The Judicial appointments have been transferred to the Attorney General's Department and various other patronage placed in his hands In Washington Mr Cushing has already received the soubriquet of "Richelieu and he is evidently crowding the Secretary of State for Executive influence and popular admiration As an accomplished scholar and an adroit statesman, Mr Cushing has no equal in the Cabinet As a politician Mr Marcy can beat him at long odds

LUMBER BY THE WHOLESALE A correspondent of the Manchester Mirror, at Wells river, writes 'Norcross logs were in that vicinity Saturday, part of them in a jam six miles below, and a part coming over the Falls two miles above They will be at Manchester in about two weeks if the river favors This Log King floats down, this year 70 000 000 feet of logs, last year, 9 000 000 feet, being twice as many as any previous year He employs about 130 men in the business, tough and hearty as pirates Norcross & Co own what is put down on the map as "Ungranted lands" They extend from 18 miles above Plymouth to the White Mountains, and contain 60 or 70 000 acres Ahead of these logs, Brooks & Tyler of Lowell, have in the river 200,000 feet of log, which will be at the Amoskeag Falls, Thursday or Friday

THE NORWALK DISASTER —Edward W Tucker, the engineer is still confined to his bed from injuries received by the recent disaster He has been admitted to bail in the sum of $5 000 and will be removed to New Haven Miss Griswold is out of danger although still very weak There are remaining at Norwalk some ten or twelve of the wounded, most, if not all of whom are doing well

H. G. Farrell's Genuine Arabian Liniment

is a most extraordinary medicine, the truth of which is placed beyond doubt by the vast sales of the article, and the many cures being daily performed by it, which previously had resisted all other medicines and the skill of the best physicians in the world It is composed of balsams extracts and gums peculiar to Arabia—possessing in a concentrated form all their stimulating anodyne penetrating unctuous and revulsive properties and the same which ages ago, were used by the "Sons of the Desert with such miraculous success in curing the diseases of both man and beast.

Read the following remarkable cure, which should of itself place H G FARRELL'S ARABIAN LINIMENT far beyond any similar remedy

Mr H G Farrell—Dear Sir Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine My child three years old, was suddenly attacked with a terrible disease which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not a joint could be bent the flesh turned black and cold, and entirely deprived of feeling the eyes fixed partially closed and altogether blind following this was deafness to all sounds the spine became contracted and so curved that when lying on its back the head and heels only touched Indeed the child presented every appearance of being dead Immediately on the attack the family physician was called in and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times and various other facie t Liniment applied A consultation of physicians was then held but to no purpose, the case was then brought before the Medical Society but nothing could be suggested which had not already been done and the doctor said nothing more could be done We then commenced applying your Liniment freely over the entire length of the spine and you may judge of our joy when after a few applications returning animation was apparent, and it rapidly recovered with the exception of sight which did not become perfect for nearly a month The child is now healthy and robust as can be Four other cases of the same kind occurred previously in my neighborhood all of which died when there is no doubt if your Liniment had been used they would have recovered

BOUNTY LANDS, PENSIONS, &c.

THE subscriber is prepared to obtain Bounty Lands for every Officer and Soldier who has served one month or upwards in any war of the United States since 1790.

All who were in the Aroostook War are entitled to Bounty Land for that service.

The widows or minor children of deceased officers or soldiers are entitled to the same amount of Bounty land the officer or soldier would be, if living.

Widows and minor children of deceased Aroostook officers or soldiers are all entitled to Bounty Lands

Pensions for all widows of Revolutionary officers or soldiers obtained by virtue of an act of Congress passed Feb 3d, 1853. This act includes all, whether married since or before the year 1800

Pensions for all officers or soldiers who have been (at any time) wounded or disabled or contracted disease, while in the line of their duty can be obtained for life for such officer or soldier, and in case of death, five years pension for their widow or minor children

☞ Five years additional pension can be obtained for widows and orphans who have been pensioned under the acts of July 21st, 1848, and Feb 22d, 1849

☞ Parties in every part of the State (or elsewhere) having claims for land, or pensions (or claims of any kind) for their own service or the service of a relative, will have them promptly and properly attended to by addressing the subscriber, post paid. Write full particulars

I have full copies of the muster rolls and records taken by myself, from the originals in the War Department, in Washington, of nearly all who have done military service in this State, which enables me to decide at once, whether a claim is valid

Cash, and the actual value, paid for Bounty Land Warrants.

Superior Shoulder Braces.

MANUFACTURED by Marsh & Co., 2 1-2 Maiden Lane, New York. The object of this Brace is to correct habitual stooping, round and crooked shoulders, weak back and chest, and preserve that erect and graceful position indispensable to health and beauty, expanding the chest, giving the lungs a free and healthy action. It is adapted to men women and children, of all ages occupations and conditions; it is light, yet perfectly elastic and warranted to retain its elasticity, and is beautifully adapted to the object designed. The shoulder straps are so constructed as to give the main bearing on the point of the shoulder, are stayed so as not to wrinkle up and form a string—are padded where they come under the arm thereby preventing that cutting under the arm so much complained of in other Shoulder Braces. These Braces are not put together by machinery, which are sure to rip, but are stitched together in the most substantial manner by hand.

Also, Marsh's Self Adjusting Trusses, which have effected more radical cures than all others combined

LYON'S
KATHAIRON
FOR THE
HAIR.

LYON'S KATHAIRON,
For Preserving, Restoring and Beautifying the Hair.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate and old age, in preserving and restoring the human Hair, even after a *Baldness* of many years—cleanses the scalp from *Dandruff*, and its natural impurities—immediately relieves sympathetic attacks of *Nervous Headache* and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

TOILET ARTICLE

For giving the hair a rich, soft, glossy and curling appearance, nothing has ever been discovered to compare with its uncontested—its incomparable virtues. It imparts the fragrance of the most delicate and exotic flowers, and is free from all mineral poisons, or any substance which can color the skin or stain a lady's hat. Cor.

BALD AND GRAY HEADS,

it is pre-eminently beneficial. The Kathairon restored my hair after a baldness of twelve years. A. JAY CARTWRIGHT, 76 Bond st. N. Y." This admirable preparation can be had of all reputable dealers throughout North and South America and the Islands of the Ocean, in large bottles, for 25 cents.

DR. MORSE'S INVIGORATING CORDIAL.

FOR GENERAL DEBILITY, IMPOTENCY, INCONTINENCE OR NOCTURNAL EMISSIONS &c. The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude* and *General Prostration*, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London Paris and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affection, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION, thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excess or evil practices. It has been said by some that these disorders, emissions &c., were incurable. This however is not the fact. DR. MORSE'S INVIGORATING CORDIAL has, and is constantly curing these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the names received will conclusively show.

Dr Woodward of the Massachusetts Insane Hospital writes of one of his patients being cured by using this cordial, thus — "It gives me pleasure to inform you that one of my patients while in Boston procured some of your Cordial. He tells me that he has not had an [illegible] emission since he commenced taking it while before he had two or three a week. When he applied to me, says Dr W., I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in these cases in the hospital, but they had no effect. In the meantime he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of course out of the question, and the proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS

have not in a single instance that has been authenticated given their sanction to any other preparation for the above complaints. It has in many violent and desperate cases, effected radical cures after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Extract is— "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose (different Sarsaparillas) without deriving any benefit. I had almost given up all hope of obtaining relief when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has [illegible]. I feel stronger, have had no emissions since, although it's not three weeks. I am [illegible] the half a dozen bottles I took will cure me."

Another says—"I had consulted several distinguished physicians. Some said I could not be cured, others prescribed this thing and that but I had no relief until I procured some of your Cordial. I must say it completely cured me."

Another says—"I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION—Ask for Dr Morse's Cordial and take no other, as there are worthless imitations which, from its reputation, excellence, fame and popularity, have been brought into the market. It will not hurt the most delicate female but do good (and try only this)

Notice. Persons conscious of physical inability from causes above named may confidentially consult Dr. Morse personally or by letter (post paid) at his office, 7d Sudbury street, Boston. The necessary advice and medicines for the speedy removal of such disability will be confidentially forwarded to the writer's address.

Dr M is prepared to warrant a perfect cure in every case or take no pay.

Prepared by M. Morse, M. D., New York city.

It is put up in pint bottles, with the words Dr Morse's Invigorating Cordial blown on the glass. Price $3 per bottle, 2 bottles $5, 6 bottles $12, and $24 per dozen.

N B Important advice accompanying each bottle.

DR. J. S. HOUGHTON'S

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC FLUID.

Prepared from RENNET, or the Fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J S HOUGHTON, M D, Philadelphia Pa

"DIGESTER." Such is the true meaning of word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID precisely like the natural Gastric Juice in its Chemical powers and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Half a teaspoonful of Pepsin infused in water will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the Stomach.

SCIENTIFIC EVIDENCE

☞ The Scientific Evidence upon which this remedy is based is in the highest degree Curious and Remarkable. Call on the Agent and get a Descriptive Circular, gratis giving a large amount of Scientific Evidence from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr. Pereira on Food and Diet, Dr John W. Draper of New York University, Prof Dunglison's Physiology, Prof Silliman of Yale College, Dr Carpenter's Physiology, &c, together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER.

Dr Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail, free of Postage, for one Dollar, sent to Dr. Houghton, Philadelphia.
